Employment

Full Stack Web Developer (May 2022 - present)
Began my path of becoming a web developer in May 2022. Currently, my experience consists of courses taken at Richmond University Coding Program (May 2022 – Nov 2022). My experience also includes working on personal projects since graduating from the coding program. Skills I have acquired and continue to build on include HTML5, CSS, JavaScript, some JQuery, server-side Node.js, Express.js to build RESTful APIs, MVC, React, MERN, relational databases such as SQL, and NoSQL (MongoDB). I am familiar with Visual Studio Code. I am also familiar with Git version control as well as deployment of applications using GitHub and Heroku.

Hire Dynamics Staffing Solutions (Lynchburg, VA) (Nov 2022-Jan 2022)
Warehouse Associate- Worked as a seasonal employee at J. Crew distribution center via Hire Dynamics Staffing solutions. Daily duties included scanning and stocking incomplete shipment orders for processing. Ensuring incomplete orders were complete by adding missing items and material handling to ensure supplies were available as needed.

Case Manager (Jan 2013 – Oct 2020) Worked as a case manager in the Richmond, Henrico, Chesterfield, and Petersburg areas of Virginia. I counseled at-risk youth (ages 5-18 years) and families in need of emotional, behavioral, social and mental health support within the home, school, and community settings. My duties included conducting social skills activities, psychoeducation groups, and individual/family sessions. Occasionally conducted welfare checks as needed. Other job duties consist of completing daily progress notes, individual service plans, quarterly reports, service request authorizations and discharge summaries. I also collaborated weekly with parents/guardians and other case service providers relative to clients for care coordination. I provided transportation using company vehicle to assist client's with accessibility to treatment and community resources as needed.
